

DiGiorgi Roofing & Siding  
682 South Main Street  
Seymour, CT 06483

August 11, 2001

Gentlemen,

[REDACTED]

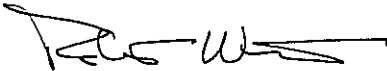

Dan did a fine job representing the company's products.

The window installations were done very well and I was impressed with the neatness and clean-up of the yard and house during and after the installation.

I would especially like to thank Ken Lyman and his assistant who installed the Cedar Impressions vinyl siding. Keith worked tirelessly in the oppressive 90 degree plus heat for two weeks. The quality of his work is exceptional and he is a valuable asset to the DiGiorgi team. Please convey my personal thanks to Keith.

As a result of the fine work performed on my house, many neighbors are interested in the Cedar Impressions siding as well as many passers-by who have stopped and asked me about the products and the firm who installed them.

In the future, I would not hesitate to recommend DiGiorgi to anyone interested in having any roofing or siding done to their home.

Robert Winters

Dear Bob and Dave,

Although it took me a lengthy time to decide on the type of siding for my house, I am so pleased with the appearance of my Cedar Impressions siding. This was a monumental decision for me, but the end result is one of pride and satisfaction.

Please extend a special thanks to:

- Ron who, so painstakingly measured and re-measured and explained and re-explained the various types of siding and procedures and details of installation
- Ken and Justin who were so accommodating and meticulous with detail while installing the siding. For an employee to say that "it is important that the customer be satisfied" says a lot for the employer
- Craig who listened to my lamenting about a needed c/o and scheduled the job accordingly

Your company has completed work on my house in the past and I found you to "stand in back of your work"; this gave me the confidence that the siding job would be done in a scrupulous manner, which it was. It is a good feeling to employ a company that is concerned with owner satisfaction and is reputable.

Sincerely,

*Shirley Erickson*

**Dear Craig:**

Today we live in a time where in most facets of society the word mediocre has become the norm rather than the exception to describe an outcome. You and your employees at DiGiorgi are without a doubt the exception to this premise.

It began with you as the representative of the company. No matter how many questions we had or how many visits you had to make to our home, you always did so with the highest degree of respect and professionalism. It started at the top and little did we know that it would carry over to the team assigned to the project.

Each and every day, Ken, Bruce, Ken and Jay arrived with a friendly greeting and a work ethic that surpassed our expectations. At the end of each day, they left our home with all the debris in the dumpster and materials ready to begin their task the next day. Rarely do you see such commitment and pride in one's work ethic.

Last but not least, the final product! Our home. It looks absolutely fabulous. It went beyond our expectations. You may be sure that we would not hesitate a second to highly recommend DiGiorgi to our friends or family when contemplating siding their home(s).

It has been a pleasure working with you and your employees. We thank you for your outstanding service and wish you the best in the future.

**Sincerely,**

*Jerry and Dolores

Re: Sean O'Connor

Dear Mike:

This letter is long overdue. We met Sean about a year ago when he gave us an estimate to have our roof, gutters and siding done on our home in Fairfield. From beginning to end he made us feel relaxed about the whole procedure. Everything he told us came true. The work was done promptly and neatly in an expert manner. We were comfortable with the crews who came to work on our property and with Vin, the project manager. We don't think we had to bother Sean too many times, however our calls were returned immediately and all of our questions answered (maybe the same ones more than once)!!! He was patient and professional above our expectations. Our house looks awesome and we want you to know how happy and pleased we are with your company and especially Sean who performs above and beyond any homeowners dreams.

We wish everyone at DiGiorgi a happy holiday season!

Thanks again.

Sincerely,

Debbie + Bob

Dear Joe:

Just a note of thanks and appreciation for the fine job Craig, Chris, Peter and their crew did with the siding, gutters, and porch window remodeling. I am very happy with the look of the house and the effect of the new siding!

Chris, Peter and their crew were professional and enthusiastic about the quality of their work. With the disruption that a large project creates, they were courteous and considerate and I appreciated their good nature. I returned home early one afternoon to find one of your group cleaning up the last shreds of debris, leaves and all. Thank you for being so thorough.

If you get a slow day during the winter, consider preparing a quote for me to replace the stairs (two) and stoop at the back, around the corner from the car port. I need it to hang laundry. The old one was too rotted to put back, so I'm looking to replace it with pressure treated wood.

Wishing you the best of the holidays and prosperity in the new year.

Sincerely,

Susan L. Carey

P.S. There are still two shutter samples and a gutter sign on the front yard to pick up. The shutters are in the back under the carport. With the high winds and snow that is certain to come, I don't want to see them get damaged.
